

July 2026 Update

Blessed Hope Champions Academy was birthed over 20years ago as a back drop of the pending need for quality education for orphans (Champions) and destitute children in Uganda Africa.

The Academy currently operates 4 campuses, which are:

- Alpha Campus in Bulamu village in Mpigi District,
- Shalom Campus in Ndeeba neighborhood of Kampala District,
- Zion Campus in Buwanda village in Mpigi District
- Jireh Campus in Jomba village in Wakiso District.

The total (Champions) learner enrollment is 1200+ with 900 learners being orphans supported by the school.

Pastors Sarah and Joel Bukenya are the founders of the schools and the senior pastors of All Nations Evangelistic Ministries in Kampala. The founder, having a background as a community activist, foresaw a darkened future for children of vulnerable parents and orphans living in poverty and got a strong concern to create an intervention from the little resources at his exposure.

In addition to the schools, the ministry operates 2 medical centers, which serve both the Champions and neighborhood communities. Among the most urgent needs they are struggling to meet right now is the ongoing cost of the following expenses:

\$ 300 monthly salary of a doctor at Bulamu campus

\$ 200 monthly salary of a nurse working at Buwanda campus

\$ 600 monthly salary for secondary school headmaster at Bulamu campus

\$ 200 monthly salary for primary school head teacher at Jomba campus

\$ 200 monthly salary for primary school head teacher at Bulamu campus

\$1500 ongoing cost for medical and administrative personnel

After the recent Ebola epidemic outbreak in Uganda, new strict standard operation procedures (SOPs) were mandatory for schools to curb the spread. We are being required to construct a new dormitory building for a total cost of \$13,000 and we lack \$7500 for its completion.
